

## Guide to Installing Autoware 3 on Windows 10

## Autoware 3

For Windows 10: Windows 10 may restrict some of the installation scripts provided within the setup.exe, from installing properly. Use the following steps to allow software to install and run successfully:

 $\cdot$  Use Admin Rights to install the software.

· Give READ and WRITE permission to non-admin user to the folder C:\Program Files (x86)\Associated Research
